

# Official Community Plan and Zoning Bylaw Update

May 15, 2024

Dear Residents,

As part of an ongoing commitment to ensuring that decisions concerning land use and development within the Rural Municipality of Blucher reflect the current circumstances and priorities of the community, the Council has embarked on a process of updating the existing Official Community Plan and Zoning Bylaw which were adopted in 2017. This update is a routine measure necessary to accurately represent the evolving needs and aspirations of the community.

The update process will involve a comprehensive review of the current documents, in-depth discussions with the RM Council and Administration on current topics facing the community, and the circulation of an on-line community survey. This survey will serve as a vital tool in identifying changes in circumstances and priorities since the previous plan was prepared. Your participation in this survey is invaluable in shaping the future of our community.

Please take a moment to access the survey by scanning the QR code below with any tablet or mobile device. Your input will help define the direction of the updates.

The survey will be open until Friday June 28, 2024.

Throughout this process, project updates will be regularly published on the RM website to keep you informed. Additionally, Associated Engineering will be hosting a public open house following the preparation of the updates. This open house will provide you with an opportunity to review the proposed updates before they are formally presented to the Council.

We value your feedback and encourage you to reach out with any comments or questions you may have about the project. Please direct them to:

Bill Delainey, RPP MCIP  
Project Manager, Associated Engineering
